International Journal of Social Economics
Volume 31 Number 4 2004 pp. 443-445
Copyright © MCB University Press ISSN 0306-8293

This book is a collection of mostly previously published essays and papers by James Boyce of the University of Massachusetts - the introductory and final chapters are new. Unlike many books of this genre, however, it has a strong coherent theme and the chapters have been edited and cross-referenced - collection of the essays into a single slim volume adds considerable value.
